VSA Enterprises – A Leader since 1987

VSA Enterprises Inc. is a Canadian company based in the Lower Mainland of Vancouver. We design and manufacture innovative exterior building construction products with distribution throughout the world.

Founded in 2000, VSA continues the legacy of Quicksilver Building Products (QBP) established in 1987. We are a family company, and we are locally owned and operated.

Featured Products

VSA Enterprises Inc. main focus is on designing and manufacturing innovative construction materials made of durable, modern plastic. Originally intended for installation with vinyl siding, these siding accessories have since become standard installation practice for a wide variety of building facades across North America.

Our original product line has been expanded and retooled over the years, and VSA's water-resistant Third Wave series of building envelope accessories has become an invaluable component of modern rainscreen technology.

Derek at VSA is very helpful and knowledgeable. I recently purchased covers for my railings and he helped me throughout the whole process including a step by step video showing how to install them. 10/10

We have used VSA for the last few years, providing us with top quality exterior accessories. Their service is UN BEATABLE compared to any other exterior accessory company we have come across. We will continue to use VSA into the foreseeable

future.

Thank you Nathan, Derek and Scott for your outstanding work and dedication.

Very knowledgeable. Knew everything about siding on my home's "envelope". Superior siding accessories and they keep moisture away from my house; they actually work! The electrical accessory is excellent and now I'm wishing I had met this business sooner. Handrail Covers for 2x4 and 2x6 railings as well that my parents now really like because they won't have to do annual maintenance on their deck rails.

The service here is top notch, and their accessories are second to none....we use their 3rd Wave products exclusively for our James Hardie siding installations. Unlike their competitors, their products trim plates have multiple setback depths to accommodate various rainscreen products, not to mention they just look better, which is what our clients care about most.

Mickey Randhawa [Read More](#)

Excellent service, very organized company and they have a great line of products to fit all your needs. I'll definitely be bringing them all of my business going forward.

Mike Catherall [Read More](#)

Vinyl handrail covers are the answer to tedious scraping, sanding, and painting. They keep out the rot and the goodness in. The power of price compelled me.

David Zoppa [Read More](#)

Awesome business! Friendly well organized and a pleasure to work with. My order was ready and waiting, thank you

Zak Danyluk [Read More](#)

Excellent line of products for your home or business. Service like Lebron in the 2016 finals, clutch.

Merv Lehr [Read More](#)

Great products have been using them for years on my developments.

James Larocque [Read More](#)

Very helpful, good color selection , well run and organized business!
